ABOUT WHITEHORSE GOLD CORP.

Whitehorse Gold is a responsible mineral exploration and development company focused on its 170-square-km Skukum Gold Project located in southern Yukon, approximately 55 km south-southwest of Whitehorse. The Project hosts the advanced-stage Skukum Creek and Goddell deposits, and the formerly producing Mt. Skukum high-grade gold mine, all of which remain open for expansion, plus additional untested mineralized occurrences. Project infrastructure includes an all-weather access road, a 50-person camp, approximately 6 kms of underground development, and a previously operating 300-tpd mill and associated support facilities. Underground operations by a previous operator at Mt. Skukum from 1986 to 1988 saw 233,400 tons of ore mined and processed to recover approximately 79,750 ounces of gold (Total Energold Corporation, 1989).
