ABOUT WHITEHORSE GOLD CORP.

Whitehorse Gold is a mineral exploration company focused on its 170 km² gold project located in southern Yukon, approximately 55 km south-southwest of Whitehorse. The Project hosts the advanced-stage Skukum Creek and Goddell deposits, and the formerly producing Mt. Skukum high-grade gold mine, all of which remain open for expansion, plus additional untested mineralized occurrences. Project infrastructure includes an all-weather access road, a 50-person camp, approximately 6 km of underground development, and a previously operating 300-tpd mill and associated support facilities. Underground operations by a previous operator at Mt. Skukum from 1986 to 1988 saw 233,400 tons of ore mined and processed to recover approximately 79,750 ounces of gold (Total Energold Corporation, 1989). The company is also reviewing other mining assets in jurisdictions that provide year-round access.
